The IMDPA is dedicated to improving and fostering advancements in both metal decorating and packaging. We strive to provide the industry with valuable information and opportunities to network with fellow industry personnel. This language reflects the IMDPA’s stated Purpose written in our association’s membership application. This dedication will become evident once again as you learn what the IMDPA’s Conference committee has assembled for this year’s Conference.

In keeping with the general session offerings of a keynote speaker, financial analyst, marketing guru, and motivational speaker, we enhanced the program with trending sustainability, logistics and compliance speakers this year. Remaining true to our quest to present the latest technological developments, we host the ever popular breakout sessions which are streamlined for flat sheet decoration and two piece decoration. A third session focuses on can manufacturing and supports our newly expanded association purview relative to metal packaging.

This year’s Conference being held from May 22-23 in Oak Brook, IL, USA, will include presentations of interest to metal decorating and metal packaging personnel alike. Our Conference includes presentations on Wall Street’s perspective on metal packaging, labor laws affecting the workplace, Safety in the Plant, Best Practices, Welding in Canmaking, Digital Printing, New Printing Equipment, Customer Branding Initiatives, Printing Equipment improvements, Plate Imaging methods and an enlightening Keynote Speech from Anheuser Busch/InBev. Our topics are the result of members communicating their requests for seminar presentations in the valuable surveys taken during the Conference.
