## ***What A Year This Has Been!***

Plans made, events cancelled, travels curtailed, business struggles, and the like resulting from a devastating disease that none of us could have predicted. But, here we are having adjusted our practices, policies and behaviors. Most of our enterprises have been deemed essential and therefore we had to rise to the occasion. While none want to benefit from the detriment of others, some have gained newfound business as a result of meeting the adjustments made by consumption behaviors. With restaurants and bars being closed or limited, consumers purchased for home consumption thus increasing the demand for the metal package. Kudos to those who have met the demands while doing so in a safe and guarded manner. We can only hope that we can return to some sense of normalcy and rest assured that the consumer will continue to recognize the value and benefit of the metal package going forward.

The IMDPA experienced the impacts of the Covid-19 dilemma as well by respecting our members' needs for safety's sake and due to regulatory restrictions. However, that did not curtail our efforts to keep certain traditions alive. We were still able to award our Scholarships, honor our Decorators of the Year, conduct our Excellence in Quality competition, and even introduce a new award for University student beverage can design which is named after Bill Coors. The results of this award and our other programs are featured in this issue.

While we may have been curtailed from hosting our Conference for 2020, we are optimistic that next year will allow us to once again convene to enjoy our camaraderie. In October we will embark on the months' long planning process to ensure that we have a thought provoking seminar which is enhanced with networking opportunities and providing the opportunity to unite once more with many friends in May, 2021.

# PACKAGING IN CANS? DESIGNING FOR CANS? DECORATING ON CANS?

Get to market quicker with the INX Color Catalog

The INX 2-Piece Metal Color Catalog is the industry's only true color standard for 2-piece can design.

The Advanced Color Communication tool contains over 600 removable color swatches printed on metal, not paper. Brand owners, designers, and metal decorators have a true representation of color and can select, communicate, and approve color efficiently, reducing lead times and getting to market quicker.

# DECORATORS OF THE YEAR

We are pleased to announce the selection of our Decorators of the Year for 2020. The two individuals chosen represent the true craftsmanship which our industry has grown to honor and respect. They were nominated for the award by their Company's leadership team which reflects the high regard each has within their organization.

The IMDPA, upon review of their credentials and nomination form, concurs that **John Caperton**, The Ohio Art Company and **Bryan House**, Crown Cork & Seal, are truly deserving of this recognition.

Congratulations to both!

**John Caperton**, The Ohio Art Co.

**John Caperton** is currently a 4 color press operator has worked for The Ohio Art Company for 7 1/2 years of which 4 1/2 years has been on the press and 3 years on various equipment. John began as a stacker operator and progressed through his apprenticeship to become the Crew Chief and Chief Press Operator on the 4 color line. John assumed these duties without hesitation and has been instrumental in The Ohio Art Company's training program for new line and press operators.. John has also been key in aiding Company efforts to implement a vision inspection system into the process and in developing procedures and guidelines for quality control.

Many of The Ohio Art Company's most recent Quality Awards were a result of John's talent, expertise and attention to detail.

**Bryan House**, Crown Cork & Seal

**Bryan House** has 25 years of experience and is currently Press Supervisor at Crown Cork & Seal's Crown Graphics Studio. Bryan operates a pilot press using his years of experience as a former Printer Operator, Production Supervisor and Quality Manager to ensure that each target can produced meets the quality specifications necessary so that production plants are able to easily match the target. Bryan works effectively in matching colors and ensuring that production can replicate them. He is extremely versatile as he repairs equipment, provides training to new pilot press operators and is involved with customer visits.

Bryan's professionalism, attention to detail and commitment to quality are foundations for selecting him as a Decorator of the Year.

# BILL COOR'S AWARDS

Last year, the IMDPA was proud to announce our newly formed Education Committee. The goal of the committee is to engage with students at various colleges and universities that offer Graphics and Packaging Programs with the hopes of drawing interest in the field of metal decorating and packaging. This would provide the industry with a network of new, younger individuals in order to build a consistent pipeline of talent for our industry. To support this effort we announced the first annual **IMDPA Student Packaging Design Competition** to provide students in the Graphics Arts and Packaging fields a glimpse of what the metal packaging industry entails. The competition gave them an opportunity design a 2-piece beverage can and display their talent and creativity to industry leaders in the metal decorating field.

Due to the cancellation of the 2020 Conference, our plans were not able to be fully executed, as many students' academic year ended abruptly. However, we wanted to acknowledge the students that executed the requirements of our inaugural Student Design Competition to create their can design!

We are happy to announce that the following students, all from the **University of Wisconsin Stout** are the recipients of the first annual Bill Coors Award. This award along with a monetary scholarship will be presented to contest winners on an annual basis. Congratulations to our Winners!

Dear IMDPA,

I want to take this chance to thank you all so much for awarding me this scholarship. As I enter my final year at James Madison University, this award will be a tremendous help towards tuition and textbooks. The education I am receiving is making me a more well rounded and better informed member of society which now, more than ever, is important. At the same time, it will help me further my studies and one day in my career. Once again, thank you for all the IMDPA has done not only for me but all students who have been awarded this scholarship over the years.

Sincerely,  
Blake Fennessy

Dear IMDPA,

I hope you are all doing well during these difficult times. I wanted to take this time to thank you for giving me this opportunity to help further my academic career. Going into my first year at Clemson University in a few months, my family and I greatly appreciate this scholarship money, as they will soon have two children in college. I will be using this scholarship money towards my textbooks I need for my classes. I can't tell you how thankful and honored I am that I was awarded this scholarship.

Thank you,  
Erin Fennessy

Dear IMDPA,

Thank you very much for the \$500.00 scholarship for the upcoming school year. I look forward to college next semester and your scholarship will make that more possible.

Thank you very much,  
James Hoyle
